• = tree in center of field

### Legend

- Permanent Hay Field
- 2007 Vegetable Field

### Abbreviations

CvrC = Cover Crop  
CvrCH=Cover Crop in Hay

For ease of tracking sake, each group of plants which are commonly grouped together in the same field are given number-letter abbreviation for tracking where they've been and where they will be going. These codes all start with a number corresponding to the year (2004=4, 2005=5...) then the letter "G" and follow the order as in the **Soil Management Timeline and Log** with a numbered two digit sequence (01, 02...).
